Asha's Hair Studio

Where Your Beauty Is Our Business

Thank you for your continued support! It is greatly appreciated. This month we would like to ensure everyone is able to be serviced as efficiently as possible. Please text upon arrival in the parking lot to ensure there is no over crowding. Our name and code will be located on the marquee upon lobby entry. Please text 404.647.4919 upon arrival in the parking lot. We will have limited space for extra guests and would like to make sure that everyone is comfortable.

Please schedule a quarterly zoom consultation for any new looks you may want this holiday season. It is going to be the key to us having a successful month. We look forward to giving everyone a good salon experience. We are still trying to social distance and create synergy for our new location.

Please place product orders online to help manage inventory and time better. Orders will be ready upon your arrival. We will have a black Friday sale 11/21/22– 11/27/22. Each day there will be a new discount code for online purchases this month. Text "discount code" to [347.850.HAIR](tel:347.850.HAIR) for the daily and monthly code. Don't know what products to order? Quarterly consultations help with this. Get product advice for you and your household. You will also receive a step by step guide for product use. Don't see the products that you are looking for please email ashasincis@gmail.com with your request.

Please leave a Yelp review this month to help our online ratings. We would like to remain one of Sandy Springs top salons. This is how we will gain the recognition needed to be relevant in today's competitive digital market. In 2022 we are striving to be # 1 in customer service. Please help us finish the year strong.

*All messages sent from the ovatu booking system will come from [650.413.9285](tel:650.413.9285) you can save this number as Asha's Appointment Booking.

**PLEASE RESPOND CONFIRMED TO APPOINTMENT REMINDERS VIA TEXT OR EMAIL

We will humbly ask everyone to wash their hands upon arrival.

Health & Wellness Tips:

- The fall is the time of year to prepare your hair for the cold weather to come.
- Scalp exfoliation and hydration is excellent for those with dry itchy skin.
- Using a hair mask once a month in place of your conditioner will allow less split ends during the cooler weather.
